
FACILITY: The main office is located at 4045 Scenic Highway, adjacent to the Mississippi River.

LAND AREA: About 2,100 acres, including nearby tank farms.

PRODUCTION: 503 kB/D of crude oil capacity, making it the second largest refinery in the United States.

WORKFORCE: At year-end 2007, there were 1,379 employees and 725 contractors.

PAYROLL: Annual payroll in 2007 was approximately \$174.5 million.

TAXES: Annual property taxes in 2007 totaled over \$14.0 million and \$1.8 million in franchise state taxes.

PURCHASES: Annual purchases of goods and services from merchants and suppliers in 2007 totaled \$324.0 million.

PRODUCTS: The Refinery manufactured about 300 products and grades of products, including the following:

- Diesel (trucks, buses, autos, trains, boats, heating, tractors, power generation)
- Jet fuel (jet airliners, military jets)
- Aviation gasoline (propeller aircraft)
- Lubricating oils (engine oils, transmission fluid, chain saws)
- Waxes (makeup, candles, crayons and gum)
- Petroleum coke (furnace fuel, anodes for the production of aluminum)
- Liquefied petroleum gas (heating, cooking, refrigeration, tobacco & grain drying, soldering, chemical feedstock)
- Chemical feedstock (raw material used in the production of various chemicals)

AWARDS: During 2007, the Refinery received the Energy STAR® Award.

SOURCES OF CRUDE: U.S. crudes, including Louisiana, Texas, Mississippi and Alaska North Slope. Foreign crudes include Mexico, North Sea, West Africa, South and Central America and the Arabian Gulf.

HISTORY:

- 1909: Refinery began operations as part of Standard Oil Company of Louisiana, with 1,800 barrels per day capacity on 225 acres in former cotton fields north of Baton Rouge (pop. 15,000).
- 1909-1940: Fuel products only (no chemicals).
- 1940: Chemical Products Division began as part of refinery.
- 1944: Standard Oil of Louisiana merged into Standard Oil Company of New Jersey, an operating arm of Standard Oil Company (NJ).
- 1948: Standard Oil of New Jersey changed name to Esso Standard Oil Company of New Jersey.
- 1959: Esso Standard Oil Company merged into Humble Oil & Refining Company.
- 1966: Chemical plant transferred to new company -- Esso Chemical.
- 1972: Standard Oil Company (NJ) became Exxon Corporation; Humble Oil became Exxon Company, U.S.A.
- 1973: Name became: Exxon Company, U.S.A. - (Baton Rouge Refinery).
- 1999: Exxon merged with Mobil to become Exxon Mobil Corporaton; Exxon Company U.S.A. became ExxonMobil Refining & Supply.
